Compliance Solutions

If You're Not Getting These Valuable Benefits From Your Current Emergency Number Service, *You're Paying Too Much ... and Getting Too Little!*

Value

With PERS, you get more than just a 24-hour emergency response telephone number; you gain access to our support staff ready to serve you 24 hours a day—every day. You'll benefit from having a resource that provides prompt and accurate answers to your technical and regulatory questions. And, should the need arise, our trained emergency response technicians are prepared to provide the assistance required to properly handle a hazardous materials incident. These benefits, and more, are provided at a cost much less than other emergency number providers. For most companies, membership with PERS is just \$210 per year.

Personal Service

Personal service has always been a top priority at PERS. It is part of our ongoing philosophy and commitment to customer satisfaction. You will never get lost in a maze of telephone automation; People answer our phones, not machines. Does your current emergency number service provide you with a regulatory compliance specialist? Do you know their name? At PERS, you will know just who to contact for the assistance you need—and you can expect nothing less than professional personal service, every time.

FREE Regulatory Support

We understand the challenges and complexity of conducting business within the parameters of a heavily regulated industry. For your business, the cost of error or oversight is high. At PERS, accessing the most current regulatory information affecting hazardous materials transportation and storage is just a phone call away. Additionally, we will serve in an advisory capacity to review and respond to letters of discrepancy or citations from enforcement agencies. PERS membership includes this DOT regulatory support at no additional charge!

Hazmat Incident Support

In the event of a hazardous materials incident you're going to be busy. Depending on the incident, there will be specific state and Federal regulatory requirements that must be promptly addressed, including formal incident reporting. PERS is staffed 24 hours a day to help facilitate your response to an incident. From start to finish, we will provide the detailed guidance and assistance you'll need to assure compliance.

No Incident Fees

With PERS, there are no additional or hidden fees. No surprises, just exceptional service and support. Guaranteed!
